

TOLEDO SCHOOL DISTRICT PUBLIC MEETING ANNOUNCEMENT

**PUBLIC MEETING
for
THE TOLEDO SCHOOL DISTRICT'S
K-12 NATURAL HAZARD MITIGATION PLANNING PROCESS**

January 24, 2016
1 p.m.
Toledo Elementary School
311 S 6th St. Toledo, WA 98591

Toledo School District is holding a public meeting to gain input from parents and community members regarding the development of their K-12 natural Hazard Mitigation Plan. The District's Plan is part of a larger statewide effort by OSPI, funded by FEMA, to identify risks to K-12 school facilities and people from natural hazards; develop and implement mitigation projects prior to a disaster event; and to reduce overall risks to the populations and structures served, while also reducing reliance on funding from actual disaster declarations. The District is one of approximately 20 school districts across the state of Washington being included in this grant funded project as a Planning Partner.

**PLEASE PLAN TO ATTEND TO LEARN MORE ABOUT THE NATURAL HAZARD
MITIGATION PROCESS FOR K-12 SCHOOLS AND PROVIDE US WITH YOUR
IDEAS AND PERSPECTIVES REGARDING PRIORITIES AND POTENTIAL
MITIGATION ACTIONS TO REDUCE RISKS FROM NATURAL HAZARDS TO OUR
DISTRICT'S FACILITIES, CHILDREN, STAFF, VOLUNTEERS, AND OTHER
MEMBERS OF THE COMMUNITY.**

FOR MORE INFORMATION CONTACT:
Chris Rust, Superintendent 360-864-6325
