

TSD Maintenance and Operations Report

September 2022

THS

Gym floor resurfaced

Concessions, pump house, visitor side ticket booth and athletic storage have been painted

New roof has been installed on the visitor side ticket booth

Dug out and created a better and larger sump pump basin for the practice field/baseball field, this will help with removing some of the standing water that accumulates near the left field corner of the baseball field.

TMS

Waxing completed on all VCT flooring

Hallway carpets were professionally cleaned

Deep cleaning of the school is ongoing

Lots of locker repairs have been completed

TES

Painted the Nurse's station

Deep cleaning of the school is ongoing

Hallway carpets were professionally cleaned

We had a small flood due to a pipe failure on the domestic water side. The water came down through the ceiling in the office which destroyed a few ceiling tiles but did not cause any other damage. It has all been cleaned up and repaired.

Softball Complex

The roof on the batting cages has been replaced and it looks great!

Other

Our PPE levels are good and we have adequate backups of custodial paper products in case there are supply chain issues.
